

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. – 30. (cancelled)

31. (new) A textile comprising cotton fibers, wherein the textile comprises from 1% to 30% by weight of cotton fibers, based on a total weight of the textile, and wherein the cotton fibers are impregnated with a preparation comprising ethyl 3-(N-n-butyl-N-acetylamino)propionate.

32. (new) The textile of claim 31, wherein the textile further comprises from 9% to 80% by weight of viscose fibers, and from 19% to 90% by weight of polyester fibers, each based on a total weight of the textile.

33. (new) The textile of claim 31, wherein the textile comprises a nonwoven material.

34. (new) The textile of claim 33, wherein the textile has an average thickness of from 0.4 mm to 2 mm.

35. (new) The textile of claim 31, wherein a degree of impregnation of the textile is from 2.0 g/cm to 10.0 g/cm.

36. (new) The textile of claim 31, wherein the preparation comprises an oil-in-water (O/W) emulsion.

37. (new) The textile of claim 31, wherein the preparation comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.

38. (new) The textile of claim 31, wherein the preparation further comprises one or more anti-inflammatory substances in a total concentration of from 0.1% to 20.0% by weight, based on a total weight of the preparation.

39. (new) A textile comprising cotton fibers, wherein a concentration of cotton fibers in the textile increases toward a surface of the textile, and wherein the cotton fibers are impregnated with a preparation comprising ethyl 3-(N-n-butyl-N-acetylamino)propionate.

40. (new) The textile of claim 39, wherein the textile comprises from 1% to 30% by weight of cotton fibers, based on a total weight of the textile.

41. (new) The textile of claim 40, wherein the textile further comprises from 9% to 80% by weight of viscose fibers, and from 19% to 90% by weight of polyester fibers, each based on a total weight of the textile.

42. (new) The textile of claim 39, wherein a surface of the textile has a cotton concentration of up to 30 % by weight and an inside of the textile has a cotton concentration of up to 10 % by weight.

43. (new) The textile of claim 42, wherein the textile comprises a nonwoven material.

44. (new) The textile of claim 39, wherein the textile has an average thickness of from 0.4 mm to 2 mm.

45. (new) The textile of claim 39, wherein a degree of impregnation of the textile is from 2.0 g/cm to 10.0 g/cm.

46. (new) The textile of claim 39, wherein the preparation comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.

47. (new) A textile comprising cotton fibers, wherein the cotton fibers are impregnated with a preparation comprising ethyl 3-(N-n-butyl-N-acetylamino)propionate and wherein a degree of impregnation of the textile is from 2.0 g/cm to 10.0 g/cm.

48. (new) The textile of claim 47, wherein the preparation comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.

P29860.A03

49. (new) A method of repelling insects from human skin, wherein the method comprises rubbing the human skin with a textile which comprises cotton fibers, the cotton fibers being impregnated with a preparation which comprises ethyl 3-(N-n-butyl-N-acetylamino)propionate.

50. (new) A cotton fiber impregnated with a preparation which comprises from 1.0% to 40% by weight of ethyl 3-(N-n-butyl-N-acetylamino)propionate, based on a total weight of the preparation.
